Jon:

Please check the file room for this. I did a removal assessment in this, but not a PASI. Maybe check with Tony from th Corp, I used the Corp to do it.

Thanks

Warren

Subject: Cochiti PASI

Would it be possible to get a copy of the final PASI for Cochiti? A CD would be fine. This area around Bland has been completely burned over in the ongoing Las Conchas fire and our BAER team is worried about the cyanide leaching facility as well as the opportunity to do some mine safety work.
